

INFORMED CONSENT FORM FOR INPATIENT CARE (IV Fluid Administration & General Inpatient Treatment)

Patient Details

Patient Name:	Rohan Mehta	Date of Consent:	10-Apr-2026
Age / Sex:	42 Years / Male	Admission Date:	10-Apr-2026
Diagnosis:	Acute Viral Gastroenteritis with Moderate Dehydration	ICD Code:	ICD-10: A09
Treating Doctor:	Dr. Neha Kulkarni (MD – Internal Medicine)	Reg No:	Reg No: MMC12345
Ward / Bed:	General Ward – Bed No. 12	Hospital:	Sunrise Multispeciality Hospital

Nature of Proposed Treatment

The patient has been diagnosed with **Acute Viral Gastroenteritis with Moderate Dehydration (ICD-10: A09)**.
The following non-surgical, general inpatient interventions have been recommended by the treating physician:

#	Procedure	Description	Associated Risks
1.	Intravenous (IV) Fluid Administration	Ringer's Lactate solution will be administered via a peripheral IV cannula to correct dehydration and restore electrolyte balance. This is a standard, non-surgical medical procedure.	Mild discomfort at cannula site; rare risk of phlebitis (vein inflammation) or bruising.
2.	General Inpatient Medical Care	Monitoring of vital signs (temperature, BP, pulse, oxygen saturation) and clinical condition. Administration of prescribed oral medications (antiemetics, probiotics, ORS, paracetamol, pantoprazole) as per physician's prescription dated 10-Apr-2026.	Minimal risk – standard nursing and medical care protocols will be followed.
3.	Blood & Stool Sample Collection	Routine diagnostic blood draw (CBC, electrolytes, CRP, renal function) and stool sample collection to guide treatment. Single needle-prick blood draw; stool sample is non-invasive.	Mild discomfort from needle prick; minimal risk of bruising at venepuncture site.

Procedures NOT Included / NOT Consented

This consent is limited solely to the above-listed general inpatient care procedures. The following are **explicitly excluded** and are NOT applicable to this admission:

- X No surgical procedure of any kind
- X No ICU admission or intensive care intervention
- X No advanced imaging (CT scan, MRI)
- X No anaesthesia or sedation
- X No blood transfusion
- X No invasive diagnostic procedures

Patient Declaration & Consent

I, **Rohan Mehta**, aged **42 years**, hereby voluntarily give my informed consent for the administration of **Intravenous (IV) Fluids** and **General Inpatient Medical Care** as described above, to be carried out at **Sunrise Multispeciality Hospital, Pune**, under the supervision of **Dr. Neha Kulkarni (MD – Internal Medicine, Reg No: MMC12345)**.

I confirm that:

1. I have been explained the nature of my illness, the proposed treatment, and its associated risks.
2. I have been given the opportunity to ask questions, and all my queries have been answered satisfactorily.
3. I understand that this consent covers **only IV fluid administration and general inpatient care**; no surgical or advanced procedures are included.
4. I am giving this consent voluntarily, without coercion, and in full understanding of the above.
5. I retain the right to withdraw consent at any time, subject to medical advice and consequences.
